Not wearing or acquiring a waiver or wrist band does not waive your responsibility to sue or to hold AMP responsible for injuries or death of you, guest or family.
AMP reserves the right and has the responsibility to promptly remove anyone from AMP property for failure to comply fully. An appropriate wristband indicating drivers/riders, spectator, minor, etc. will be issued and must be worn at all times when on the facility. This choice is purely the driver's choice and the understanding of the risks of having the windows up or down. Check with your car manufacturer on the ideal scenario for your specific vehicle. Windows up may improve impacts/crashes but can result in slower exit/or extraction from the vehicle in a fire. **Drivers** assume responsibility for this choice for themselves and their passenger.

- entry of the approaching corner.
- d. If a driver/rider notices a vehicle or bike in their rear view side mirror for several turns, please allow that driver to pass at the next available passing straight. Blocking will be cause for a visit to the chief steward.
- e. If you notice a driver/rider is not paying attention to his or her mirrors, make your way to the pit out steward to warn them about the negligent driver/rider.

7. Dropping of Wheels/Off-Circuit Excursions/Spins

- g. Laying a bike down or crashing is the end of day; meet with the Chief Steward.

8. Entering/Exiting the track

- a. The driver/rider should start with a "warm up" lap(s) each time entering the track. This will allow time to get a feel for the vehicle or kart and its conditions, i.e.: brake pedal pressure, tires being warmed, handling characteristics, etc. This time will also allow the driver/rider to build up tire temperatures. (NOTE: TIRE SCRUBBING AND WEAVING CARS, BIKE, OR KART BACK AND FORTH IS NOT PERMITTED ON PIT LANE)
- b. At the end of each session or the lap prior to exiting the track, it is recommended that the driver/rides take a "cool down" lap so the car/bike or karts components can cool off before being parked in the

paddock. It is not good for a vehicle/bike or karts to exit the track with high temperatures.

(CARS ONLY: DO NOT SET THE EMERGENCY BRAKE WHEN PARKING)
